SO PATENT ABSTRACTS OF JAPAN (CD-ROM), Unexamined Applications, Vol. 1985
AB PURPOSE: To provide the titled food composition composed of royal jelly and octacosanol, and having the synergistic tonic effect in addition to the nutrient effect.

CONSTITUTION: The objective food composition is prepared by compounding an oil-solution of octacosanol dissolved in hot food oil or fat, or an aqueous emulsion of octacosanol prepared from the oil-solution by the aid of a cyclodextrin composition, etc. The amount of octacosanol is preferably 0.001~2wt% based on the royal jelly.
